

Name _____

Date _____

Hypothesis Worksheet

Before going back to the stream, hypothesize how a storm event might change the following characteristics. Then, use the data sheet and the references provided by your teacher to gather your data.

Parameter	How might this change?
Chemistry (identify your test):	
Turbidity	
Vegetation/algal growth	
Cobble embeddedness	
Stream width/depth	
Stream flow	
Erosion/deposition	
Other impacts
